Agenda

- 1* Participant Enrollment
- 2* PM Payment Dashboard/Timeline
- 3* Participant Status Alerts and Performance Flags
- 4* Consideration for future developments
- 5* Questions & Answers/Discussion

A scenic view of a residential neighborhood on a hillside. In the foreground, there are tall, dry, golden-brown grasses and some bare trees. The middle ground shows several houses with varying rooflines and colors, nestled among trees. Some trees are evergreen, while others are deciduous and without leaves. The background is a clear, light blue sky. A white rectangular box with a green border is overlaid on the right side of the image, containing the title and subtitle.

Participant Enrollment

Overview of participant platform and overall enrollment process

Covered Today

- Project Finder for participants
- How to manually create a participant profile
- The requirements for participants:
 - Demographic survey
 - Utility Information and where to find it
 - Sizing documentation
- Future Consideration for Bulk Uploads and APIs

Not Covered Today

- Low-Income Waitlist
- Managing Moves, Transfers, and Terminations
- API Integration Details

Project Finder

Find a community solar project

Approved community solar projects are shown below. You must be in the same utility territory as a project to join as a participant. Click on the project row to see pricing information and more details about a project.

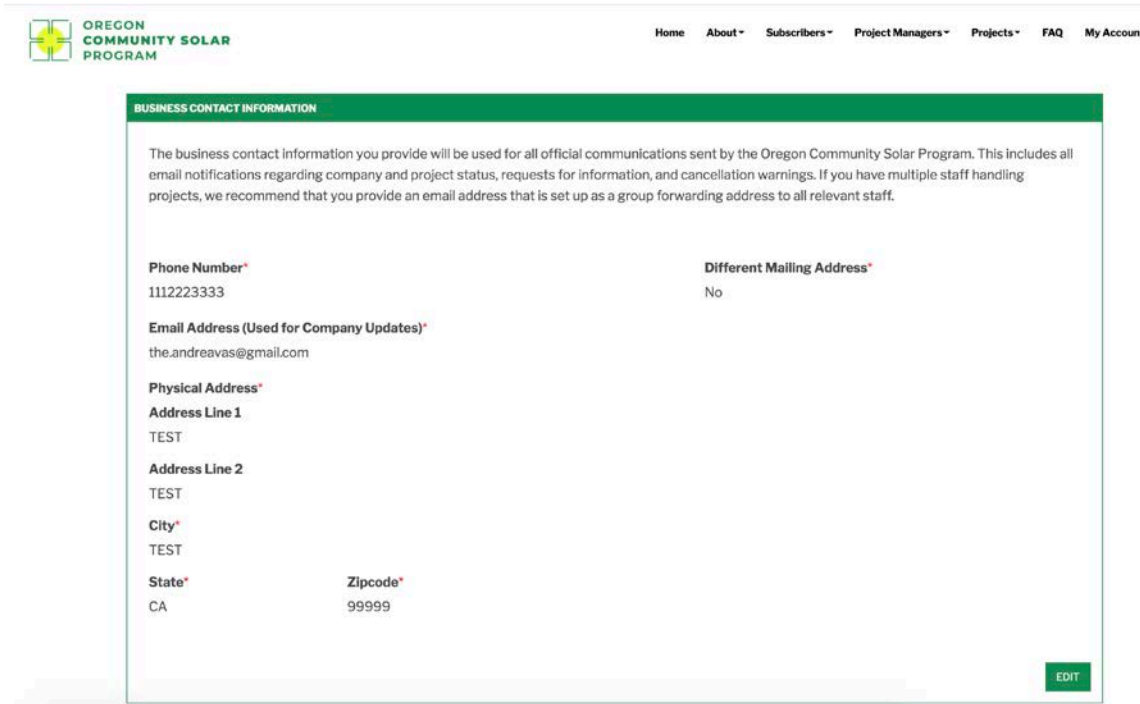

Sort by Project Name

Search

Project ID	Project Name	Project Manager Name	Utility	City	Operational Date	Total Capacity (kW-AC)	Accepting Participants	Special Project Designation	
PGE-2020-56	Carnes Creek Solar, LLC	Conifer Community Energy 5, LLC	Portland General Electric	Salem		2,500	✓ Yes	N/A	>
PGE-2020-34	Cosper Creek Solar, LLC	Conifer Community Energy 1, LLC	Portland General Electric	Willamina		2,500	✓ Yes	N/A	>

BUSINESS CONTACT INFORMATION

The business contact information you provide will be used for all official communications sent by the Oregon Community Solar Program. This includes all email notifications regarding company and project status, requests for information, and cancellation warnings. If you have multiple staff handling projects, we recommend that you provide an email address that is set up as a group forwarding address to all relevant staff.

PARTICIPANT REGISTRATION

☐ Accepting participants

Participant Enrollment Guidance Document

- This resource covers:
 - Required participant information
 - Locating utility identifiers and customer energy consumption
 - Subscription sizing guidance
 - Verification process and documentation requirements
- Additional guidance pending on using platform to enter and use participant information

Participant Enrollment Guidance

This document provides guidance on the participant enrollment process to Project Managers in the Oregon Community Solar Program. Project Managers should review this guidance in tandem with the participant and subscription sizing requirements contained the Oregon Community Solar Program Implementation Manual, available at www.oregoncsp.org/pl/ProgramImplementationManual.

The first section of this resource provides guidance on what information Project Managers will need to enroll a Participant, and where they can find this information. The second section describes how Project Managers may size Participant subscriptions to avoid oversubscription.

Enrolling Customers in the Program

Project Managers must provide the Oregon Community Solar Program with certain information about the customers they wish to enroll in their projects. The Project Manager should collect the required information from Participants during the contracting process, and should provide that information to the Program after contracting is complete. Only customers that have signed a Community Solar Participant Contact (including an Energy Information Release) may be enrolled in the Program, and Project Managers must attest that each Participant has signed the contract and information release.

A Project Manager may provide Participant information in one of two ways:

- Via a webform available at www.oregoncsp.org.
- Through API integration with Salesforce.

Additional guidance on using the Oregon CSP platform to enroll customers is provided in the Project Manager Resources page of the Oregon CSP website at www.oregoncsp.org/pl/ProjectManagerResources.

Key Takeaways

1. Project Managers must collect and provide Participant information to the Oregon Community Solar Program to enroll a customer. Participant information may be uploaded either through the Program website at www.oregoncsp.org, or through an API that connects to Salesforce.
2. For most customers, Project Managers should obtain both a **recent utility bill** and a **download of historic electricity consumption** from a Participant to collect the data needed for sizing and enrollment. Both of these are available to the customer via their utility's online portal.
3. **Sizing customer subscriptions correctly is a critical activity**, and will be verified by the Program Administrator.

Available at oregoncsp.org under *Project Manager Resources*

Required Participant Information

- **Customer contact information**
 - Name (both First/Last and as it appears on bill)
 - Phone/Email/Address
- **Utility Account information**
 - Utility identifiers
 - Customer type
- **Subscription Information**
 - Community Solar Project
 - Pricing Product
 - Subscription Size
 - Consumption verification method
- **Demographic/Firmographic Information**

Locating Customer Information

Customer Account Information

Where: Customer utility bill

What:

- Account Number
- Meter Number
- Site Identifier
 - PGE: SPID
 - PAC: Item No.
 - IPC: Service Agreement No.
- Participant Rate Class

See guidance document for specific locations on customer bill for each utility.

Customer Consumption History

Where: Online utility portal (see guidance document for CSV download instructions)

What: Past monthly kWh consumption figures

See guidance document for CSV download instructions for each utility.

Note: Do not rely on CSV downloads for utility identifiers (especially for PGE customers), as these may refer to additional internal tracking numbers.

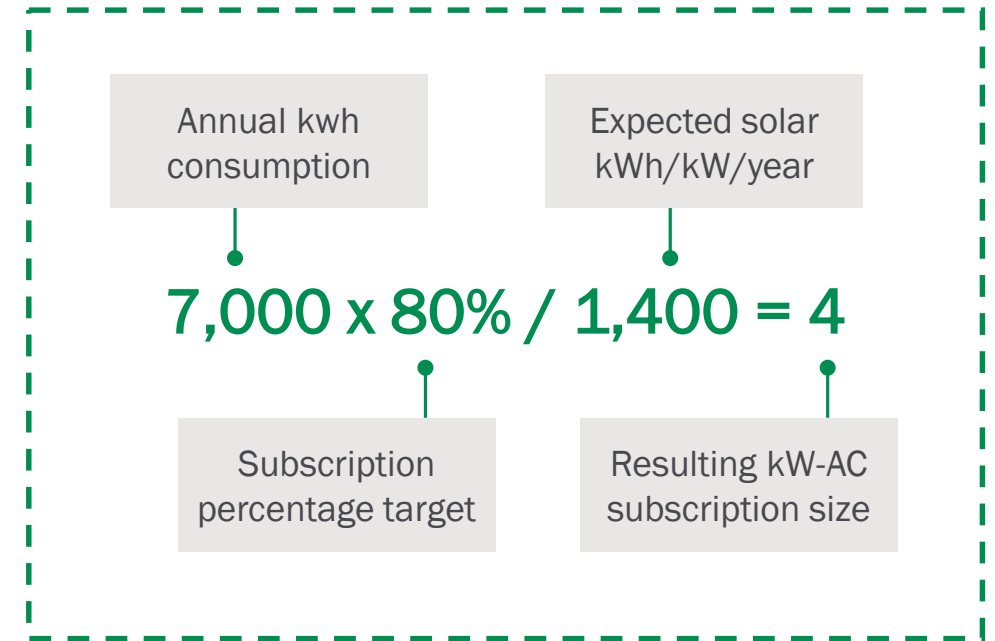

Subscription Sizing

Subscriptions are sized in kW-AC and are a function of:

- Annual **participant energy consumption** (kWh)
- Targeted community **solar subscription percentage**
- Expected **CSP production** (kWh per year per kW-AC)

Subscription size limits:

- Subscriptions **may not exceed 100%** of average annual consumption
- Subscriptions are **recommended not to exceed 80%** of average consumption

Verification and Documentation

The PA Team will verify that customers are not expected to oversubscribe, and will:

- Request a reduced subscription if exceeding average annual consumption
- Advise of oversubscription risk if exceeding minimum annual consumption
- Perform quarterly checks of oversubscription risk for all participants

PA subscription size verification methods:

- Default: data transfer provided by utilities
- *If requested or necessary:*
 - Average building consumption data
 - Documentation provided by PM

No documentation is required at enrollment, but please keep these on file in case of request:

- Participant contract
- Customer bill
- Customer consumption history / subscription justification

Demo: Adding a Participant

Coming July 2020!

- Contact information
- Project & Subscription size
- Utility Account Data

The screenshot shows the 'Participant Enrollment Form' for the Oregon Community Solar Program. The form is titled 'Participant Enrollment Form' and 'ContractID - 13'. It has a status of 'Draft' and 'Low-Income Verification: Not Verified'. The participant status is 'Pending Connection'. The form is divided into sections: 'Application', 'Documentation', and 'Submit'. The 'Application' section is active. Below this is a green header for 'PARTICIPANT INFORMATION'. The form fields are as follows:

Field	Value
First Name*	
Last Name*	
Primary Utility Account Holder, as it appears on the bill*	
Phone Number*	
Customer Type*	Low-Income
Site Address*	
City*	
Zipcode*	
Email*	
Electric Utility*	Idaho Power
Utility Account Number*	
Utility Meter Number*	
Utility Service Agreement Number*	

Participant Recruitment

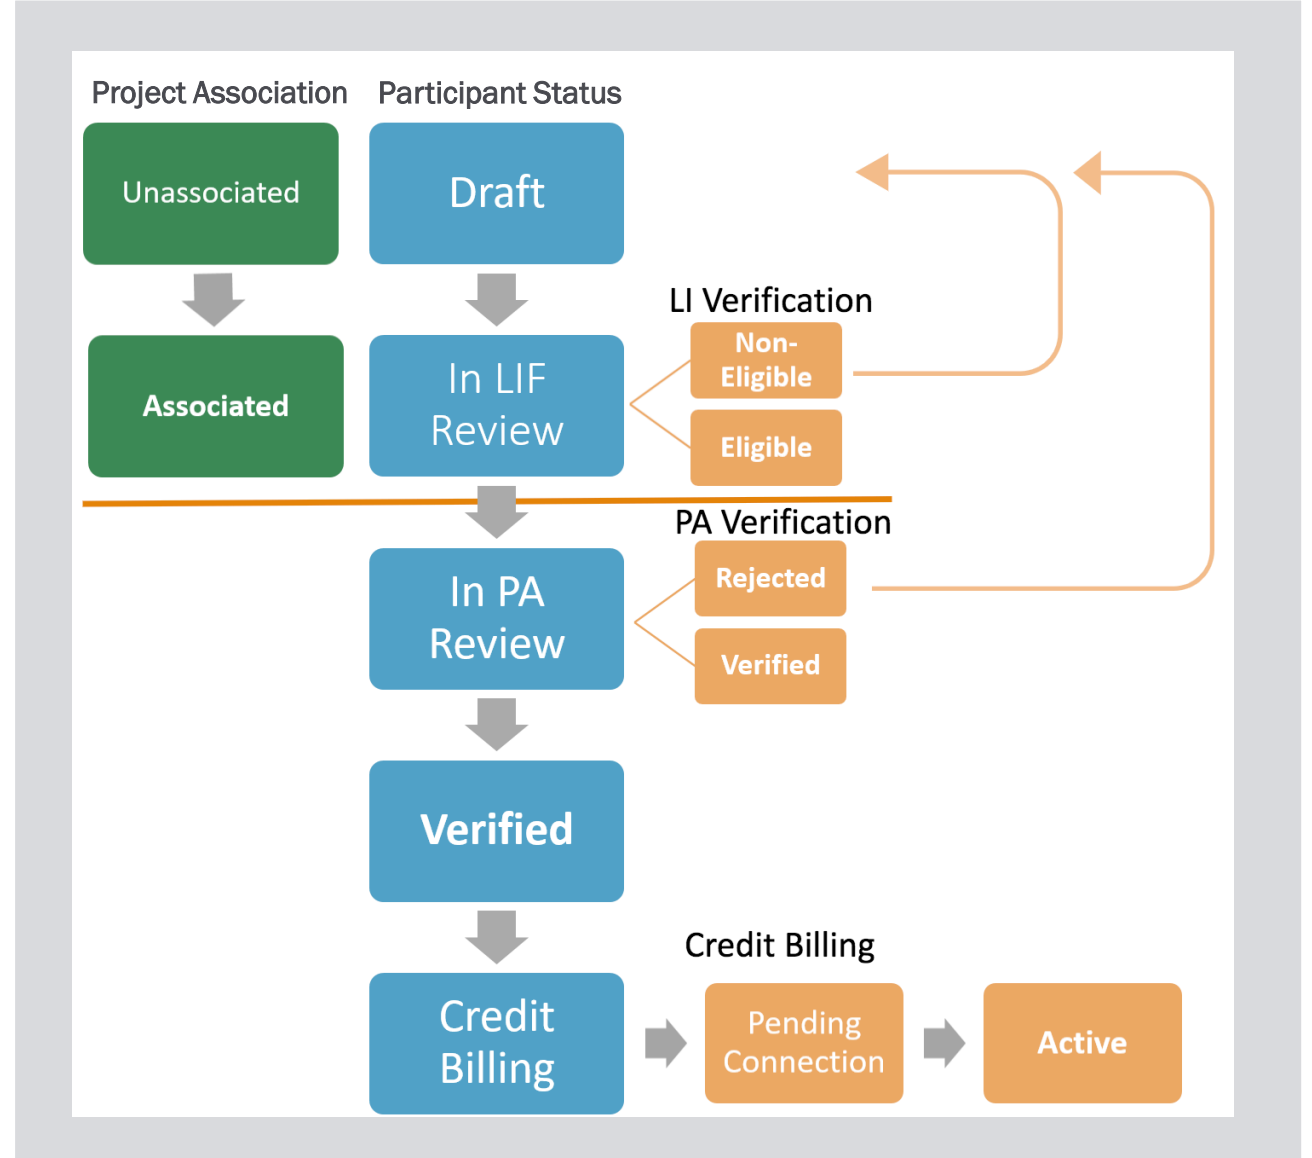

Project Association: The participant's association to a specific project.

Participant Status: The participant's enrollment status in the program.

LI Verification: Low-income verification performed by the Low-Income Facilitator, CEP.

PA Verification: Verification of the participant's eligibility and subscription sizing.

Credit Billing: The participant's status in the credit billing period.

Participant Enrollment

If Project Manager recruits GM/Low-Income:

PM submits information through platform
(and contracts with GM subscribers)

PM fills out participant profile, including:

- Utility Information
- Project and Size assignment
- Participant Demographics

CEP confirms low-income eligibility
through intake (and the PM contracts with
low-income subscriber)

PA verifies and enrolls subscriber in project

If CEP recruits low-income:

CEP fills out participant profile, including:

- Utility Information
- Project and Size assignment
- Participant Demographics

CEP confirms low-income eligibility
through intake

PM finalizes contract with subscriber and
submits information through platform

PA verifies and enrolls subscriber in project

Subscription Requirements for Certification

1. At least 50% of the Project's capacity is subscribed
2. No more than 50% of capacity is owned or leased by non-residential subscribers
3. Minimum of 10% of capacity is owned or leased by low-income residential
4. Minimum of 5 participants subscribed
5. No participant may own or lease more than 40% of project capacity

PM Payment Dashboard

Payee information, ACH forms, walkthrough of dashboard, payment timeline

Payee Information and ACH Form

Payee designation at the project level:

- Payee Name
- Email Address
- Mailing Address

Payment options:

- Check
- ACH

Please indicate if you would like to be paid by ACH. If you answer yes, please complete the Vendor and ACH information sections below.

☐ YES – Pay by ACH

☐ NO – Do not pay by ACH

VENDOR INFORMATION

Vendor Name: _____

Vendor Address: _____

Email address: _____
(for payment notification)

Name and Title: _____

Signature: _____

ACH INFORMATION

By providing the following bank information to Energy Solutions, the above named vendor is requesting that all payments be deposited to the following account:

Bank Name: _____

Bank ABA #: _____

Bank Account #: _____

Search by Project Name

Unsubscribed Power			Project Payments		Monthly Participant Records			
Generation Month	Participant ID	Participant Name	Project ID	Subscription Size kW	Attributed Generation kWh	Subscription Fee Due	Subscription Fee Collected	Payment Status
05/2021	53	Jessica Rodriguez	ABC-2020-123	13.0	95	\$10.45	\$10.45	Paid
05/2021	55	Megan Davis	ABC-2020-123	5.5	40	\$4.40	\$0	Late
05/2021	32	Earnest Brown	ABC-2020-123	10.0	73	\$8.03	\$2.00	Partial

Subscription Payment Timelines

- Due to the on-bill payment process, PMs will typically receive subscription payments 2-3 months after the end of the monthly generation period.
- **Example:** The subscription fee for the generation produced in May is likely to be paid to the PM in July or August. The subscription fee for generation produced in June is likely to be paid to the PM in August or September, etc.
- The exact timing of subscription payments to the PMs are impacted by the following factors.
 - The Participant's native billing cycle
 - When the participant pays their electricity bill
 - When the utility pays the PA
 - When the PA pays the PM

Subscription Payment Timeline Example

5/31	End of solar generation month
6/9	Utility posts May's generation credits and fees to the Participant's accounts <i>9th calendar day (or day after if Sunday or Holiday)</i>
6/12	Customer receives bill with May CSP credits/charges at the beginning of cycle
6/27	Customer pays bill 15 days later
7/10	Utility sends Participant Fee Collections file to PA. Participant payment record is now available to PM on the platform. <i>Twice a month in PGE and PAC, on 10th and 25th calendar days (except for holidays and weekends).</i>
7/17	Utility remits PM subscription fees to PA
7/23	PA pays subscription fees to PM

Late Payments

PMs will be notified if the full payment is not included in the bi-monthly Collections File in which it is expected. This may or may not coincide with what the utility considers to be a late payment.

- **Example 1:** A Participant's bill is **due on July 16** but the Participant **does not pay until July 18**. Even though the payment is late from the utility's perspective, the payment will be recorded in time for inclusion in the August 10 Collections File. The payment is *not flagged by the PA*.
- **Example 2:** A Participant's bill is **due on July 16** but the Participant **does not pay until August 1**, therefore the payment will be not recorded in time for inclusion in the August 10 Collections File. The payment is *flagged by the PA*.

Participant Status Alerts and Performance Flags

Email alerts, status changes, and miscellaneous
notifications

Performance Flags

Email Alert	PM Action
New low-income recruits on your project	Contact the Participant to finalize contract
Participant Status changes: <ul style="list-style-type: none">• Low-Income Eligible/Ineligible• PA Review Verified/Rejected• Participant Bill Crediting Active• PA Canceled Participant	<i>If Low-Income</i> <ul style="list-style-type: none">• Eligible: Proceed contracting• Ineligible: Update draft or choose to cancel <i>If PA Verified</i> <ul style="list-style-type: none">• Verified: Proceed contracting• Rejected: Update draft or choose to cancel
Utility account changes: <ul style="list-style-type: none">• Customer not in good standing• Account Closed• Account Suspended• Account Re-instated• Participant has moved	Contact the Participant to identify new account info <ul style="list-style-type: none">• PMs are responsible for proactive account management of participant moves/transfers/cancelations
Monthly Payment Issued Notifications <ul style="list-style-type: none">– Including link to Monthly Ledger	<ul style="list-style-type: none">• Confirm payment received• Review Monthly Ledger for participant late or partial payments

Email communications are sent to the stated "Business Contact Information" email address.
We recommend setting up group email or forwarding rules for all relevant staff members.

Performance Flags

Performance Flags	PM Action
Quarterly oversubscription alerts	Contact Participant to consider sizing down subscription to avoid oversubscription

Considerations for future developments

Future functionality such as access to a platform API

Future Integration Considerations

- **Participant Bulk Upload:**

A tool to upload a bulk set of participant information

- **Salesforce API:**

An API to connect with Salesforce instances to push participant information
