Account Number, Agreement Number, and Meter Number inquiries

- During the interconnection process, a Pacific Power employee will reach out to the contact number of the project manager. This call will create the solar project site and an account number will be created.
- When the site is connected to the Pacific Power system, the site will have a meter number. The project manager can then call our general customer service line at 1-888-221-7070 and get the meter number and agreement number associated with their account.
