PROGRAM

Oregon Community Solar Program:  
**Annual Update by Program  
Administrator**

Presented by Energy Solutions

May 19, 2020

# *Agenda*

- 1* Program Roles and Responsibilities
- 2* Program Development and First Year Achievements
- 3* Program Launch and Statistics
- 4* Next Steps
- 5* Highlights, Challenges and Opportunities

# Program Roles and Responsibilities

# Program Administration (PA) Team

---

## Program Administration

Program Implementation Manual

Funds Management

Public Reporting

## Education & Outreach

Coordination

Workshops and Demos

## Platform Management

CSP Platform Configuration

Utility Integration

Data Security

---

## Program Administration

Project Review for Pre-certification and Certification

Installation Verification

Dispute Resolution

## Education & Outreach

Project Manager Registration

Customer Support

## Platform Management

Application Processing

QA/QC

---

## Program Administration

Program Diversity Strategy

## Education & Outreach

Low-Income Facilitator

---

## Program Administration

Regulatory Policy Development

Budget Management

Contract Management

## Education & Outreach

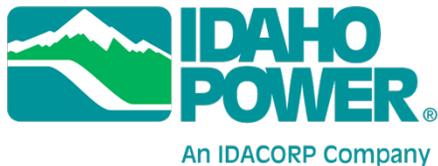

Commission Workshops administration

Public Stakeholder Engagement

# Key Implementation Partners

In coordination with the PA and OPUC Staff, utilities have developed and implemented ongoing data exchange policies and procedures for participant verification and billing.

Registered Project Manager

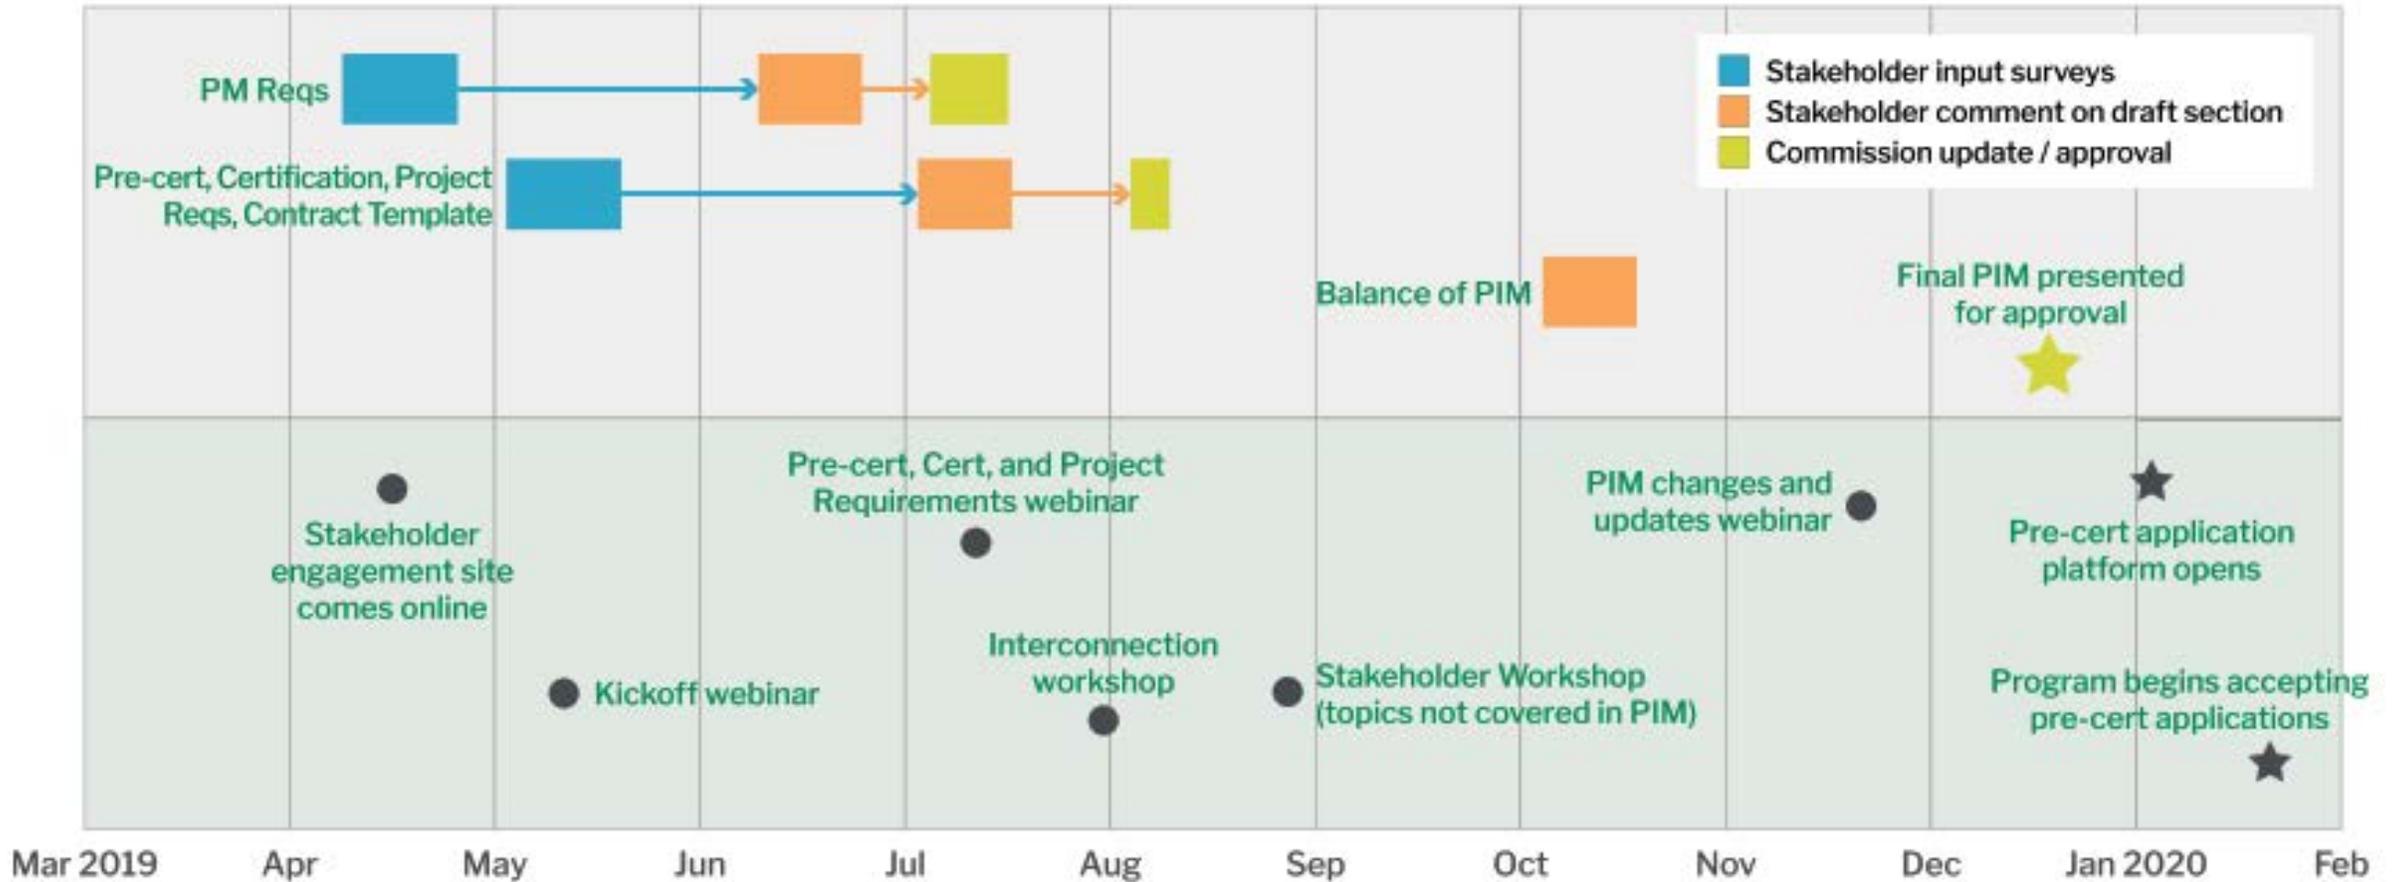

---

Project Managers (PMs) are responsible for marketing, recruiting and enrolling subscribers, ongoing subscriber management, and ongoing maintenance and operation of the project.

# Program Development Process and First Year Achievements

# Program Development Process: Stakeholder Engagement and Program Implementation Manual (PIM)

# *Program Development Process:* **Customer Protection**

The Program Administrator (PA) developed a robust set of guidelines that Project Managers must abide by to maintain good standing:

- Code of Conduct
- Standard Contract Requirements and Customer Disclosure Checklist
- Complaint Escalation Procedures and Reporting
- Disciplinary Probation and Termination Process

# *Program Development Process:* **Project Manager Education**

## **Managing Your Project & Subscriptions:**

[How to Register and Use the Project Manager Portal](#)

[Eligible Rates & Customer Types](#)

[Billing & Payments Guide for Project Managers](#)

[Subscription Sizing Calculator](#)

[Average Home Energy Consumption Workbook](#)

[Clearinghouse Pricing Sample](#)

## **Contracts and Forms:**

[General Waiver Form](#)

[Low Income Discount Waiver Form](#)

[General Market Standard Contract](#)

[Low Income Standard Contract](#)

[Disclosure Checklist](#)

## **Interconnection Resources:**

[Interconnection Guide](#)

[Eligible Feeder Capacity - PGE](#)

[Eligible Feeder Capacity - Pacific Power](#)

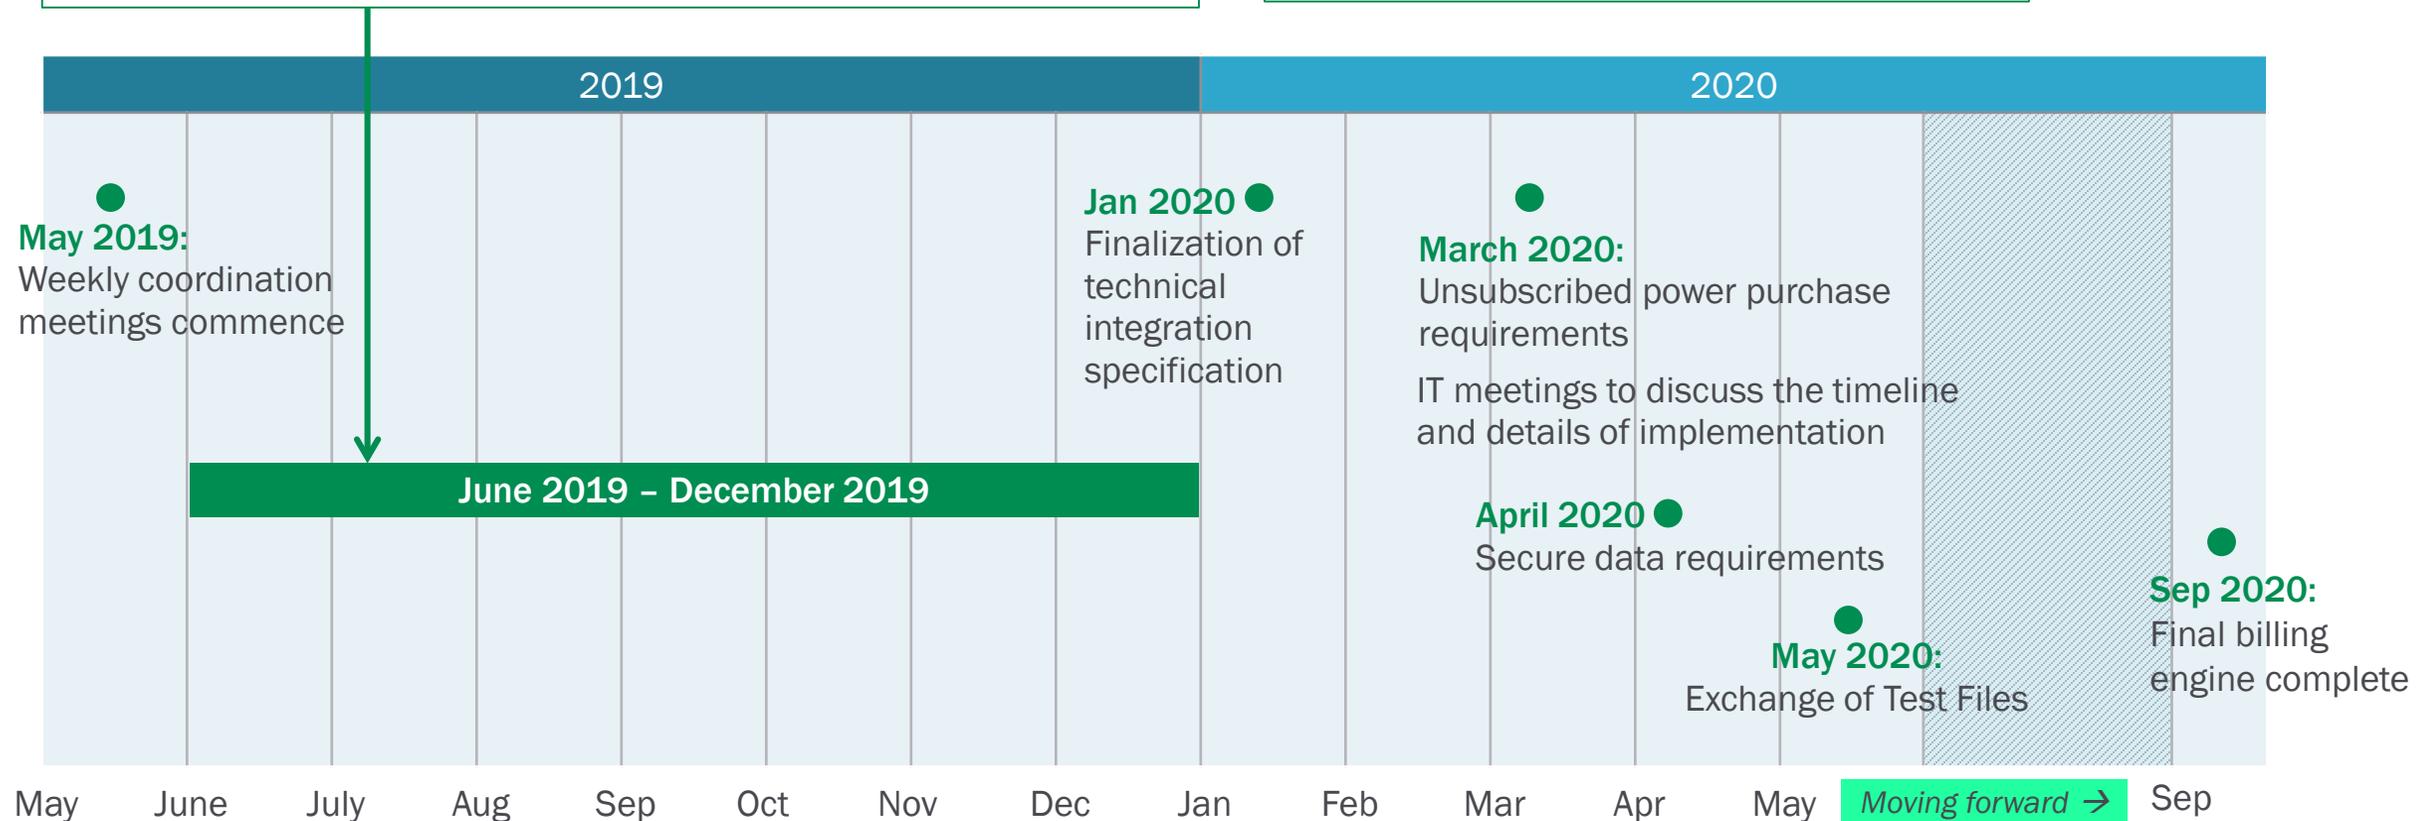

## **Project Manager Video Training Series**

# Program Development Process: Utility Data Exchange

Beginning in May of 2019, the PAs worked with utilities to discuss data exchange processes and issues, IT concerns, and subscriber experiences. PAs, OPUC Staff and utilities clarified and reached consensus on issues and questions involving various billing and crediting policies.

Resulted in the **Technical Integration Specification** and **Unsubscribed Energy Specification**

# Program Development Process: Platform

## Completed:

- **Phase 1:** Basic Platform: Allows for Project Manager (PM) registration, pre-certification and certification project submission, including document uploads, communication templates, PA recommendation and reporting functionality.

## In Development:

- **Phase 2:** Participant User Interface: Allows PMs and the low-income facilitator (LIF) to upload subscriber information and assign participants to pre-certified projects
- **Phase 3:** Additional Automation: Application program interfaces APIs for automatic integration with external systems.

The screenshot shows the Oregon Community Solar Program website. At the top is the logo and navigation menu: Home, About, Subscribers, Project Managers, Projects, FAQ, Admin. Below is a green navigation bar with links: Account Settings, Company Profile, Project Dashboard (highlighted), Participant Dashboard, Project Managers. The main content area is titled "Project Dashboard" and includes two export buttons: "REGULATOR EXPORT" and "FULL PROJECT EXPORT". There are two search filters: "Search by Project Name" with a search box, and "Projects that are due before" with a date input (mm/dd/yyyy). Below these are two checkboxes: "Projects with Low-Income Participants" and "Projects with 100% Low-Income Participants". On the right, there are two more checkboxes: "Projects that are due today" and "Projects that are past due". A table is partially visible with columns: ID, Project Name, PM Company, Status, Status Date, Next Due Date. The first row shows: PGE-2020-1, Submission: Waitlisted, 1/22/2020.

# Program Development Process: Website Features

## Find a community solar project

Approved community solar projects are shown below. You must be in the same utility territory as a project to join as a participant. Click on the project row to see pricing information and more details about a project.

Sort by Project Name ▼

Search

Project ID	Project Name	▲ Project Manager Name	Utility	City	Operational Date	Total Capacity (kW-AC)	Accepting Participants	Special Project Designation
PGE-2019-103	Hundred Watt	Test company 5	Portland General Electric	Portland		3,000	X No	Brownfield Dual-Use Agriculture Low Income <span style="float: right; border: 1px solid #ccc; padding: 2px 5px;">➤</span>

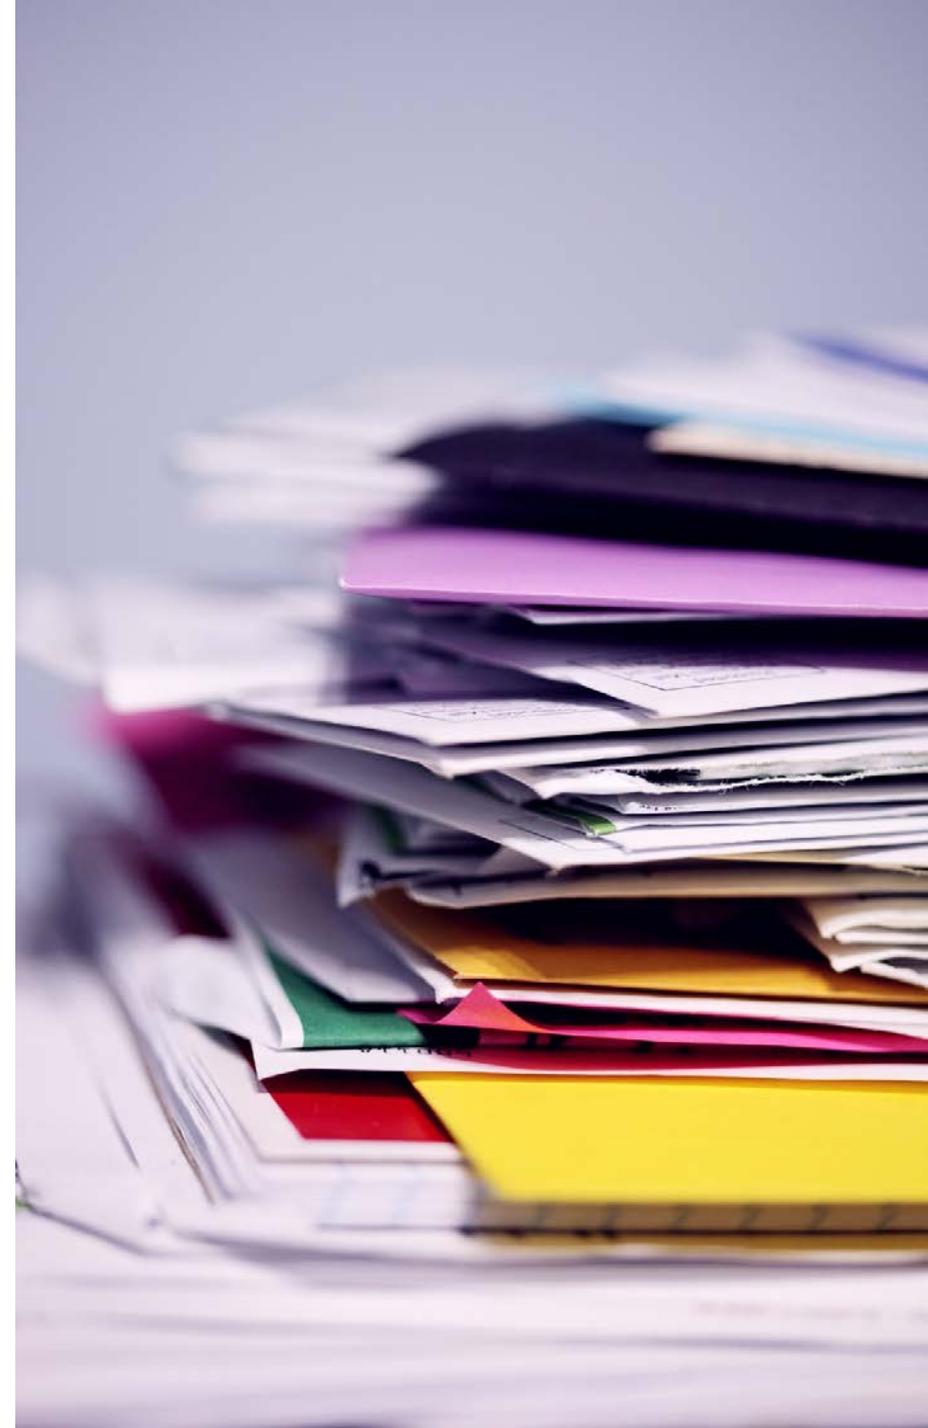

## *Program Development Process:* **OPUC Policy Lane**

Several key program issues were decided through a separate regulatory process managed by OPUC.

The PA team provided input on several critical policy issues, including:

**Bill Credit Rate and Program Fees:** Financial modeling allowed team to experiment with values to determine most efficient and equitable bill credit and program fees.

**Low-Income Program Requirements:** Policy proposal incorporating principles such as accessibility, participant protections, no harm policies, encouraging diversity.

# Program Launch and Statistics

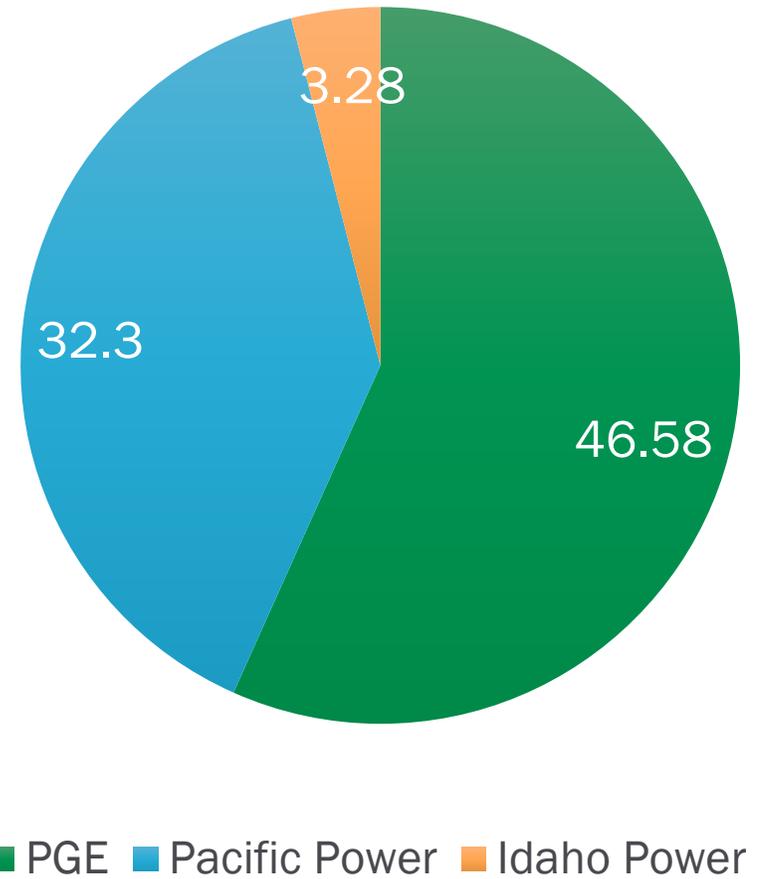

# Project Statistics – Program Launch

## Reserved vs. Available Program Capacity

## Total Capacity by Territory (MW)

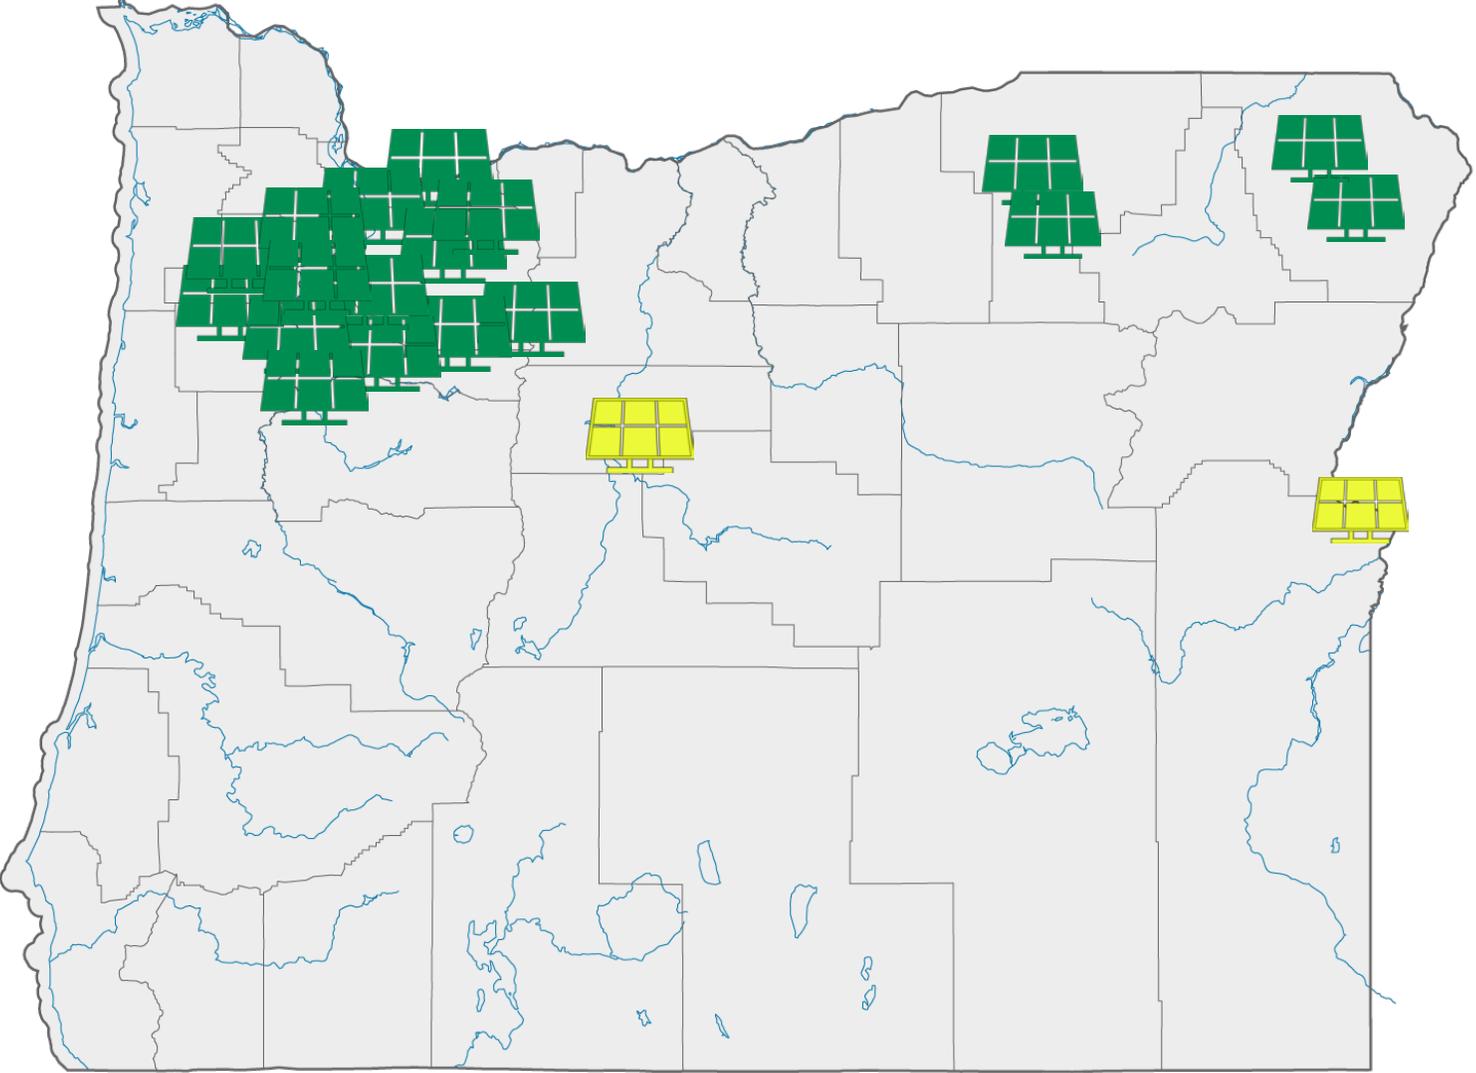

# Project Statistics through May 15, 2020

Since program launch, four additional projects were allocated capacity, three of which are carve-out eligible projects in PGE and Pacific Power. One project was submitted to PGE’s waitlist.

Utility	Capacity Pre-Certified (MW)	Allocated Capacity Pending Pre-Certification	General Capacity Remaining (MW)	Carve-Out Capacity Remaining (MW)	Total Capacity Remaining (MW)
PGE	34	0	1	11.6	12.6
PAC	7	2.3	18.6	4.5	23.0
IPC	0	3	0.3	N/A	0.3
<b>Total</b>	<b>41</b>	<b>5.3</b>	<b>19.7</b>	<b>16.1</b>	<b>35.8</b>

- 88% of projects allocated capacity have been pre-certified.
- 43% of total program capacity is still available for new submissions in the initial capacity tier.
- 45% of available capacity is reserved for carve-out eligible applications.

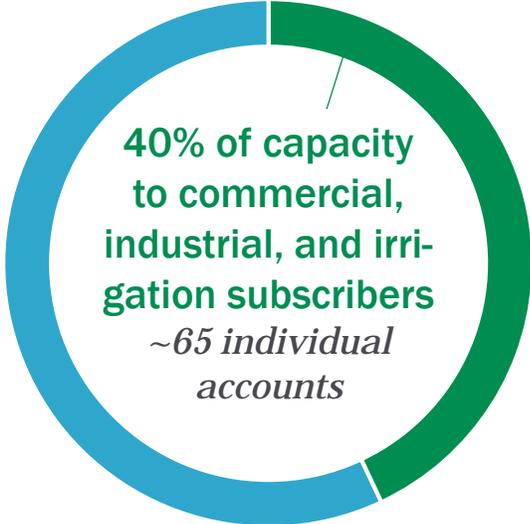

# Project Statistics through May 15, 2020

The map shows the geographic locations of submitted projects.

- Pre-certified projects (21)
- Project awaiting pre-certification (2)

# Subscriber and Low-Income Statistics

7 PMs noted that they planned to self-recruit low-income participants

12 PMs expressed an interest in collaborating with the LIF for recruitment

4 PMs noted that they planned to ask the LIF to recruit all low-income participants

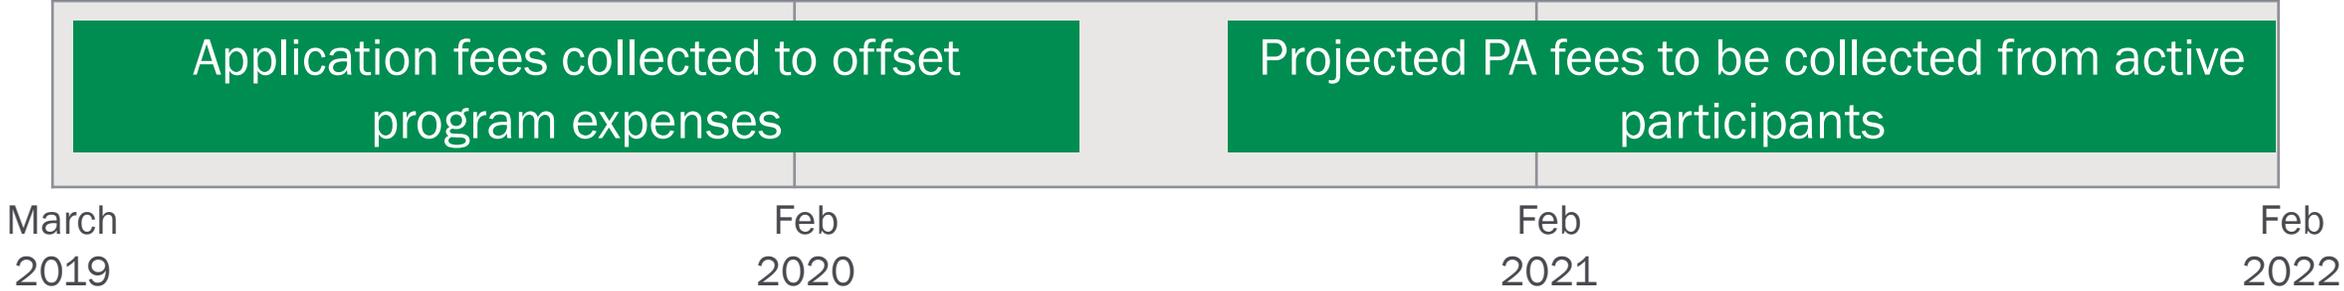

5 PMs said they did not know how they were planning to recruit low-income participants

6 PMs declared a special interest in targeting and servicing low-income customers or community organizations

# Program Administration Contract

3 year contract: March 2019 – February 2022

97% of year 1 budget expensed through February 2020

32% of total budget expensed through February 2020

# Next Steps and Opportunities

# Year Two Activities

## Utility Integration

*Test file exchange and billing engine finalization*

## Engagement and Subscriber Participation

*PM workshop series, low-income recruitment and communications*

## Consumer Protection and Education

*Subscriber resources and guidance*

## Collect learnings from Stakeholders on Program Implementation

*Collecting data and feedback from stakeholders as projects move toward certification and billing*

# Highlights, Challenges and Opportunities

## Highlights

- Program framework allows for adaptive learning
- Equity and project diversity through program design
- Interconnection policies and procedures

## Challenges and Opportunities

- Subscriber recruitment in the era of COVID-19
- Leverage learnings and ongoing stakeholder collaboration and feedback for continued improvement

# *Thank You!*
